Meritor Diagnostic System Setup

Locate desktop icon and double click it. -

CONFIGURE RP1210 ADAPTER

Ensure an RP1210 adapter is connected to the laptop and the appropriate drivers have been installed. Then click on the gear icon in the upper right corner. —

Select Adapter Configuration.

Select the RP1210 adapter you are connected to from the list provided. ----

Then select **Connect Adapter**.

Once connected, in the lower right where it says **Adapter**, it will now say **Connected**.

PULLING PCM FAULT CODES

Locate the **Tools** tab in the upper left corner of the screen and click it.

Adapter:

Adapter: Cor

To get fault codes, click on Trouble Codes.

Then select **PCM** in the bottom left corner.

When connected to a vehicle, a list of fault codes will appear. Record the fault code number for reference later.

For a list of PCM fault codes, visit **meritor.com/lod** and refer to Meritor maintenance manual **MM2120**.

PULLING SCM FAULT CODES

Next, select the $\ensuremath{\text{SCM}}$ in the lower left corner.

When connected to a vehicle a list of fault codes will appear. Record the fault code number for reference later.

For a list of SCM fault codes, visit **meritor.com/lod** and refer to Meritor maintenance manual **MM21106**.

To clear fault codes, click **Clear Trouble Codes** at the bottom of the screen.

Meritor service and maintenance manuals can be found at **meritor.com/lod**.
